

Local Government Pension Scheme

Contribution Earnings Bands 1 April 2010 – 31 March 2011

The earnings bands used to determine the contribution rate paid by Scheme members will not change on 1 April 2010. The following table displays the bands:

What will it cost you?

Whole-time pay rate	You pay ¹
Up to £12,600	5.5%
£12,600.01 to £14,700	5.8%
£14,700.01 to £18,900	5.9%
£18,900.01 to £31,500	6.5%
£31,500.01 to £42,000	6.8%
£42,000.01 to £78,700	7.2%
Over £78,700	7.5%

...and don't forget, your employer pays as well!

And if, as a former manual worker, you have protection to pay a reduced rate, changes in your contribution will be phased over the next year as follows:

2010/11 - 6.50%¹

Not already a member? Don't delay – the sooner you join, the greater the benefits!

¹ Lower, in accordance with the corresponding pay band from the table above.

PLEASE NOTE:

The Government recently consulted on possible changes to the contribution rates for those earning over £75,000 per annum. However no formal decisions have yet been announced on this matter.
